

SL009 Silk Eye Mask with Heating

The Prospera Silk Eye Mask with Heating is elegantly designed to provide warmth and comfort to your eye area. The heating element in the mask is eco-friendly graphene, an excellent heat conductor. Its thermal conductivity increases logarithmically due to its stable bonding pattern and its nature as a 2D material. The sleep mask provides comfort and stress relief; it effectively improves blood circulation, reduces fatigue, and helps restore your energy level. The Silk Eye Mask with Heating will also enhance sleep quality.

This eye mask can be used anytime, whether it's a midday break or a full night's sleep. A USB cable is included for easy charging; simply plug the mask in for 2 hours, and it is ready for multiple (20 or more) uses.

The Prospera Silk Eye Mask with Heating has three temperature settings: warm (113°F), warmer (122°F) and warmest (131°F). After 30 minutes, the mask automatically shuts off. This product is certified by CE, FCC and RoHS and is safe to use.

Product Specifications

- Graphene: high efficiency heating
- Improves circulation, reduces fatigue, relieves stress, restores energy
- 3 heat settings: 113°F, 122°F, 131°F
- Auto shut off after 30 minutes
- Soft elastic band for all sizes
- USB charging cable included
- Charging 2hrs, for 20 or more uses
- Travel size, carry case included.
- Durable silk-like material
- Product Size: 8"x3"x1.1"
- Weight: 1.4 oz (without battery)
- DC 5V,2A or power bank (not included)
- CE ,FCC ,RoHS certification
- UPC 6933917020080
