

## SL010 Silk Core Warmer

The Prospera Silk Core Warmer is elegantly designed to provide warmth and comfort to the stomach area. The heating element in the mask is eco-friendly graphene, an excellent heat conductor. Its thermal conductivity increases logarithmically due to its stable bonding pattern and its nature as a 2D material. The core warmer provides heat to the stomach and abdomen areas, in doing so, effectively improves blood circulation, reduces discomfort (such as indigestion, upset stomach, bloating, menstrual pains, and more) and helps restore energy.

This core warmer can be used anytime, whether you're working at the office, preparing a meal, or out for a walk. Its soft elastic band and buckle accommodate to any size. A USB cable is included for easy charging; simply plug the mask in for 120 minutes and it is ready for multiple (20 or more) uses. This product also comes with a beautifully made carrying case for any travel needs.

The Prospera Silk Core Warmer has three temperature settings: warm (113°F), warmer (122°F) and warmest (131°F). After 30 minutes, the warmer automatically shuts off. This product is certified by CE, FCC and RoHS and is safe to use.

### Product Specifications

- Graphene high efficiency heating
- Improves circulation and reduces discomfort
- 3 heat setting: 113°F, 122°F, 131°F
- Auto shut off after 30 minutes
- Soft elastic band with adjustable buckle for all sizes
- USB charging cable included
- Carrying case included
- Durable silk-like material
- Product Size: 10.24"x5.5"x0.4"
- Weight: 1.34 oz
- DC 5V, 2A or power bank (not included)
- CE, FCC, RoHS certification
- UPC 6933917020066
